

Petra Battery Acid Cleaner & Detector

PN 9020 (2oz) Specification Sheet

Product Description:

Petra Battery Acid Cleaner & Detector is a quick acting, quick neutralizing, penetrating cleaner that dissolves corrosion and neutralizes acid instantly. It penetrates and removes battery acid and corrosion allowing for maximum current flow. Changes color from pink to colorless in presence of acids, helping detect battery leaks. Excellent for cleaning terminals, cases, cables & hold-downs. Helps prolong battery life by reducing energy loss. Applications include automotive, marine, farm machinery and motorcycle batteries.

Advantages & Uses:

- Detects and neutralizes battery acid
- Dissolves corrosion and cleans battery terminals, cases, cables & hold-downs
- Simply apply on and rinse off

Features:

- Helps prolong battery life by reducing energy loss and maximizing current flow
- Applications include automotive, marine, farm machinery and motorcycle batteries
